CANVAS DATA SERVICES FOR TABLEAU

Canvas Learning

Canvas by Instructure is the LMS that gets used. Canvas connects instructors, tools, ideas, and students, and then stays out of the way. With all the built-in features you need and the integrations you want, Canvas makes teaching and learning easier, enabling you to take education to a higher level.

Canvas Data Services (Tableau)

Instructure offers services that link your existing Tableau environment with Canvas Data. As part of the project, you can select up to ten predefined reports from our resource library. We can also embed the Tableau environment* directly into Canvas. Optionally, you can choose to have us create up to three custom reports for you or invite us onsite so we can work directly with your team.

Configuration *plus* Standard Reports $1,500

- Configuration of Tableau to use Canvas Data as a data source.
- Select up to 10 pre-defined reports from our resource library to be loaded into Tableau.
- Embedding Tableau environment* directly into your Canvas instance.
- Knowledge transfer to provide basic understanding of configuration, architecture, and report usage.

Configuration *plus* Custom Reports $4,500

- Configuration of Tableau to use Canvas Data as a data source.
- Embedding Tableau environment* directly into your Canvas instance.
- Select up to 10 pre-defined reports from our resource library to be loaded into Tableau.
- Up to three custom reports created from Canvas Data** and loaded into Tableau
- Knowledge transfer to provide basic understanding of configuration, architecture, and report usage.

Onsite Workshop *plus* Reporting $11,500

- Up to two days of consultation with a Canvas Data expert.
- Configuration of Tableau to use Canvas Data as a data source.
- Embedding Tableau environment* directly into your Canvas instance.
- Select up to 10 pre-defined reports from our resource library to be loaded into Tableau.
- Up to three custom reports created from Canvas Data** and loaded into Tableau.
- Includes onsite workshop, Tableau configuration, custom report creation, and knowledge transfer.

*Embedding Tableau into Canvas requires existing access to Tableau Online.

** Limited to Canvas Data, other data sources not included.
